

## LUANAR POSTGRADUATE TRACER STUDIES 2018

Dear Graduates

The Lilongwe University of Agriculture and Natural Resources (LUANAR) in collaboration with National Council for Higher Education (NCHE) kindly requests your participation in a tracer study survey targeting Bunda graduates who completed their **postgraduate** studies from 2007 to 2016 under both **UNIMA and LUANAR**. The study will commence on 9<sup>th</sup> April 2018 and will close on 6<sup>th</sup> May 2018.

The main objective of the study is to establish a tracing system and feedback mechanism between LUANAR and its postgraduate alumni. The study would like to know graduates' career paths, the relevance of the qualifications to the industry and the overall quality of its graduates in terms of knowledge, skills and attitudes acquired throughout their studies.

The findings of the tracer study shall be used to improve the quality of the various postgraduate programs that the institution offers particularly in responding to industry needs. The findings shall only be presented in summary form and your responses shall be kept strictly confidential. Please be as open as possible.

The study will be using an online system to collect data. This will take an average of 30 minutes. A LUANAR system administrator will provide you with secure access details and passwords. All the information provided through this platform will be treated with strict confidentiality and also anonymize the data to any non-statistical tracing of respondents.

We will, therefore, highly appreciate if you will submit to us the filled online questionnaires at your earliest convenience.

For any further clarifications, please do not hesitate to contact the tracer start team leader through [aquafish-project@luanar.ac.mw](mailto:aquafish-project@luanar.ac.mw) or [ynongonda@luanar.ac.mw](mailto:ynongonda@luanar.ac.mw); You may also call or text to +265 999 222 283

Thank you in advance and we look forward to your participation
